

FLEXPO™ maverick I20™

lexan® digital graphic installations

Start in corner of unit as seen in Step 1. Attach the Lexan® Digital Graphic mural to the unit with the magnetic strip (attached to photo mural panels) to the magnetic bar. The magnetic polars will click together making installation easy. Continue this process until all panels are hung.

All of the Lexan® Digital Graphic are lambda prints with a laminate made durable for the trade show industry. The panels have a 1/2" magnetic strip all around the edges of the photo mural.
